

Tropical Greetings from the Isles of the Republic of Vanuatu, formerly known as the New Hebrides...

Fr8 Logistics are a well established, Vanuatu based Freight Forwarder, with its head office in Port Vila, on the Island of Efate – this is the hub for the Southernmost Islands of Vanuatu (Aneityum, Futuna, Tanna, Aniwa, Erromango, Epi, Emae, Emau, Malekula, The Shepherds, Ambrym)

Fr8 Logistics also have an office in Luganville, on the Island of Espiritu Santo, which acts as a hub for the northernmost islands of Vanuatu (which serves all islands not listed above...) as well as an office at the Bauerfield International Airport located in Port Vila (from 1st April 2010)

Fr8 Logistics is the only Freight Forwarder in Vanuatu which truly takes on all freight forwarding activities: with warehousing, trucks, vans, forklifts, modern IT facilities offering inbound and outbound Air and Sea services, linked into the farthest corners of Vanuatu, in partnership with the most efficient and reliable domestics operators, nobody else can come close to matching their logistical ability in this region

Fr8 Logistics also have an Auckland based office, through which transhipments are possible to Vanuatu through their newly formed relationship with ECU Line, Auckland.

Cargo routed via ECU Line Auckland will always be placed on the first available vessel (never more than three weekly rotation, with eleven day transit) and upon out-turn in Vanuatu, a cargo POD (or document POD) will be sent back to origin if this information is provided to enable this advice

At Fr8 Logistics Vanuatu, they look forward to assisting you by providing easy, efficient and secure access to trading partners in this beautiful part of the world...
